

Free Copy Coupons

Name _____

Even though we try very hard to be organized, you might accidentally misplace an important paper. This could be homework, classwork, an information handout, or almost anything. If that happens, you have four chances to get another copy of that paper, without consequences.

All you need to do is

-  cut out a coupon
-  fill in the information
-  give it to the teacher

That teacher will give you a free copy of the paper.

These coupons do not get you out of a missing homework assignment. If you have lost a homework paper, get a copy of the paper, complete it, and turn it in ASAP.

Put these coupons in a safe place and be sure your name is on the paper. If you lose your coupons, you cannot get another paper. If you use all of your coupons and then lose another paper, it will cost you a color flip to get a new copy.
